

Create your Dropbox App

App Console - Dropbox

Click the create app button to start the process.

Your apps

The Dropbox Platform gives you effortless access to hundreds of millions of Dropboxes. Whether you're building a server-based app with the Core API, syncing structured data with the Datastore API, or just grabbing files with the Chooser, you'll need to create an app to integrate with Dropbox.

Create app

Create app - Dropbox

Select 'Dropbox API app'.

What type of app do you want to create?

Drop-ins app

Chooser or Saver

Dropbox API app

Sync API, Datastore API, or Core API

Create app - Dropbox

Select 'Files and datastores'.

What type of data does your app need to store on Dropbox?

☒ Files and datastores

☐ Datastores only

Create your Dropbox App

Create app - Dropbox

This app only needs access to it's own files.

Can your app be limited to its own, private folder?

☒ Yes — My app only needs access to files it creates.

☐ No — My app needs access to files already on Dropbox.

Create app - Dropbox

Name it and click the 'Create app' button.

Provide an app name, and you're on your way.

Create app

brlyblrg-sample - Dropbox

Grab the App key and secret and put them in 'development.env'.

App key	hi1ljhrv6wg0nhx
App secret	53vtcnarr9pmhxi
